

# Erbslöh DAP

Diammonium phosphate

## Product description

Erbslöh DAP is a pure diammonium phosphate for improved yeast nutrition and propagation. Permitted according to current laws and regulations. Laboratory tested for purity and quality.

## Treatment aim

Improved yeast nutrition and fermentation performance.

## Product and effect

Erbslöh DAP increases the ammonium and phosphate content in juice. This improves the nutritional basis for the yeast. The yeast cells are able to propagate well and alcoholic fermentation is less prone to problems. The product tends to clump. This can usually be eliminated by gently kneading the bag.

## Dosage

Up to 100 g/100 L depending on the must's supply. This is also the maximum permissible quantity which can be legally added.

## Use

Suspend in juice or water and add to the juice. Distribute thoroughly in the tank.

## Storage

Store in a dry place, away from light. Packs which have been opened should be immediately tightly sealed.
